Century Club Charities is a not-for-profit organization created in 1994. Through the generosity of Sanderson Farms and other contributors, we have generated over \$13.5 million for Mississippi charities, with the main beneficiary being Friends of Children's Hospital.

Batson Children's Hospital, located on the University of Mississippi Medical Center campus in Jackson, is the state's only medical facility devoted exclusively to providing world-class care and treatment of sick and injured children.

By becoming a member of Century Club Charities, you're able to promote the game you love while doing a world of good. Join us today. You can register your membership at www.centuryclubcharities.com.
